## January 14, 2026 | Bolingbrook, IL | Emergency Traffic Crash Plan in Effect

---

Due to the sudden heavy snowfall and deteriorating road conditions the Bolingbrook Police Department has implemented the emergency traffic crash plan. This plan diverts all non-injury related crashes that do not require a tow and did not endure air bag deployment, to the police department for traffic crash reports. This plan keeps the roads clear and drivers safe. Our dispatch center (WESCOM) has been advised.

Additionally, parking on the street after 2 inches of snowfall is prohibited by Village ordinance. This prohibition is in effect, and we will be enforcing.

Please drive carefully!
